

Module: Web Design Essentials

Assignment No: 3

Max Marks: 10

ENTRI
elevate

1. Assignment Title: Styling a Personal Portfolio with CSS3
2. Objective:
 - a. The objective of this assignment is to create a static portfolio website using HTML and style it entirely using CSS3. Focus on designing an aesthetically pleasing layout and applying various CSS3 properties for styling.
3. Assignment Details:

Assignment Structure:

1. **Project Setup**
 - Organize files with a folder structure (`/css`, `/images`).
2. **HTML Structure**
 - Include the following sections:
 - **Header:** Navigation links (About, Projects, Contact).
 - **About Me:** A short description with your name, role, and a picture.
 - **Projects:** Showcase 2-3 projects with titles, short descriptions, and placeholder images.
 - **Contact Form:** Fields for Name, Email, and Message.
3. **CSS Styling**
 - Use a linked CSS file for styling.
 - Apply the following:
 - Custom fonts using Google Fonts.
 - Background colors or gradients.
 - Borders, padding, and margins for spacing.
 - Hover effects for buttons and navigation links.
 - Basic animations or transitions using CSS3 properties.
 - Style the contact form with visually distinct input fields and a submit button.

4. Content Requirements:

The portfolio website must:

- Have a clean and visually appealing layout.
- Utilize CSS3 properties like gradients, box shadows, and border-radius.
- Include styled buttons and hover effects.
- Have proper spacing and alignment across all sections.

5. Submission Guidelines:

- Submit all project files in a compressed ZIP folder.
- Include screenshots showcasing each section of the website.
- Ensure that the project is well-organized according to the specified folder structure.

6. Breakdown of Marks:

Sl.no	Criteria	Marks
1	Project Structure and Organization	2
2	All sections present	2
3	CSS styling	2
4	Design and visual appeal	2
5	No broken layout	2
